

Petroleum Solutions

For Fuel Handling & Service Station Equipment

Lowest Initial Cost- as a vertically integrated manufacturer LSI can control and deliver the highest quality canopy fixture on the market at the best possible cost.

Lost cost of installation- Time is money. Quick and easy installation reduces your costs. No other fixture installs as quickly and easily.

Best-in-Class Performance- The lighting performance you want. The optical efficiency you need.

Lowest Maintenance Costs- LED technology means no lamp replacements which equals significantly lower maintenance costs.

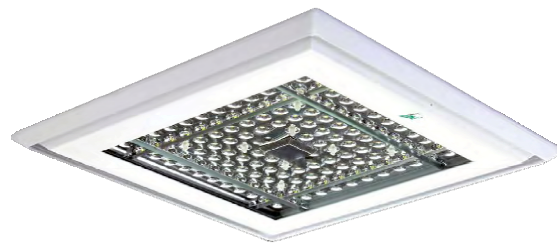

Longest Operating Life- Proprietary Smart-Tec™ Technology ensures intelligent two-way communication between the driver and light engine to provide the highest level of control and component protection in the industry.

Complete Peace-of-Mind Reliability - Engineered and built to last with virtually no maintenance.

CROSS OVER TO THE BEST! LIGHTING PERFORMANCE & ENERGY COST SAVINGS

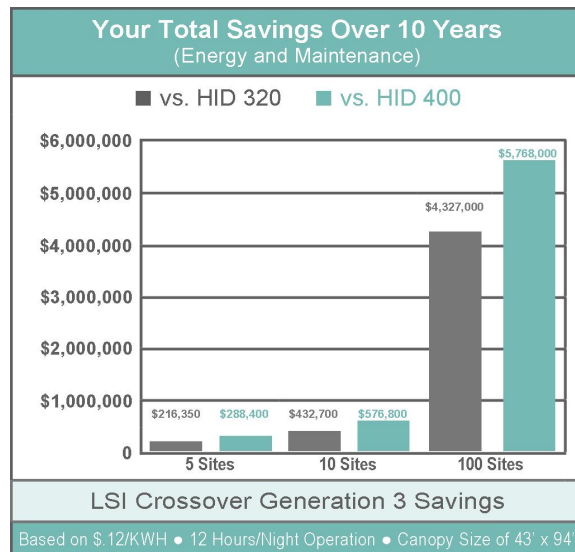

Crossover® SOLID-STATE LIGHTING | GENERATION 3 CANOPY LIGHTING

- 60-85% reduction in energy costs
- 60,000-100,000 hours of expected life
- Improved Image
- Dramatically improved light levels
- Virtually no maintenance
- Easy installation and retrofit

Lighting accounts for 40% of the utility costs of a facility. LED lighting reduces operation costs, improves operation functionality and saves energy—giving you an immediate return on your investment.

UP TO 76% REDUCTION IN ANNUAL COSTS!

Crossover®
GENERATION 3

	Fixture Type		
	Gen3	HID 320 W	HID 400 W
Total System KW	3.05	8.83	10.99
Annual Energy Cost	\$1,836	\$5,322	\$6,623
Average Annual Maintenance Costs	0	\$841	\$981
Annual Cost	\$1,836	\$6,163	\$7,604
Annual Savings		\$4,327*	\$5,768*
ROI		2.94 Years	2.2 Years

*Potential energy savings using (24) 320 W or 400 W HID fixtures vs. (24) GEN 3 fixtures (CR03-ES-LED-84-450-CW-UE)

Petroleum Solutions

For Fuel Handling & Service Station Equipment

The new Crossover™ Generation 3 has been developed with one ultimate goal in mind. Provide the absolute best LED lighting solution and make it affordable. The end result: a brilliant new lighting system packed with all the benefits of the Scottsdale and LED technology.

LIGHTING PERFORMANCE	EASY INSTALLATION	LOWER OPERATING COSTS
<ul style="list-style-type: none"> Multiple optics and drive current choices means you can create the environment that best suits your needs. Ten lumen output choices. From the soft appeal of symmetrical and asymmetrical illumination to Scottsdale-style lighting brilliance, you have your choice with LSI's Crossover Gen 3. Easy to clean, clear tempered glass lens protects LED chips from the elements to ensure illumination quality for the lifetime of the fixture. 	<ul style="list-style-type: none"> Fastest, easiest install in the industry - installs in less than half the time compared to competitors' designs. Replaces Scottsdale and Scottsdale-style fixtures with no cutting or drilling the deck—no need to relocate electrical source. For new canopies—installs like the Scottsdale with no sealant required! 	<ul style="list-style-type: none"> Patented SmartTec™ intelligence and reflector technology ensure optimum light output with significant energy savings. Intelligent thermal diagnostics guard driver and optical components against extreme operating conditions. The only fixture on the market with IP65, IP67 and IP68 ratings—prevents moisture and dirt from entering the fixture resulting in overall lowest maintenance and longest fixture attractiveness life span in the industry. Unique breathable design eliminates internal pressure build up.
